

# WATERPROOFS

Equipment expert Madeleine Winnett reviews the latest weatherproof suits

## GALVIN GREEN ARISSA/AUBREY

SRP: £199 (jacket); £299 (trousers)  
www.galvingreen.com 01932 503 330

**FEATURES:** Gore-Tex Paclite Shell fabric with stretch function and excellent breathability. Ultra light and ultra packable

**LG VERDICT:** A beautifully shaped jacket, tapering in at the waist for a flattering fit, and the writing down the placket looks great. It oozes quality. Excellent knee-length trouser zips for easy donning over shoes, and the adjustable waistband ensures a perfect fit. Width adjusters at the bottom of the legs cater for all tastes.

## FOOTJOY RAIN JACKET

SRP: £110 www.footjoy.co.uk 01480 301 114

**FEATURES:** Lightweight Sta-Dry System with sealed seams and a comfortable smooth lining.

**LG VERDICT:** THIS is very chic with the little stand-up, tapered storm collar, and is very elegantly shaped with the tapered waist. You can draw the waist in further via cinch-cords in the pocket. It's a good length, and the three pockets are useful. Lightweight, very smart and beautifully contoured for ladies.

## BENROSS XTEX STRETCH

SRP: £79.99 (jacket); £59.99 (trousers)  
www.benrossgolf.com 01932 821 200

**FEATURES:** Engineered to keep out the harsh elements of rain and wind while maintaining comfort by using fast-wicking linings and breathable fabrics

**LG VERDICT:** THIS is my favourite Benross suit to date, in terms of fit and styling for ladies. I like the fleece-lined pockets and collar, and the trousers are superb with the anti-slip waistband, so they don't creep down when crouching. There's a Velcro-adjustable waist for perfect comfort and adjustable leg widths. Sizes are generous.
