GALVIN GREEN MAIN SPONSOR FOR NORWAY'S MOST PRESTIGIOUS GOLF TOUR

Galvin Green will be the main sponsor of Norway's most prestigious international golf tour. Norgescup has been renamed the Galvin Green Tour and is now to include two Nordic League-status tournaments.

Investment in the Galvin Green Tour is part of Galvin Green's long-term plans within the Norwegian golf market.

"Galvin Green and the Norwegian Golf Federation have been working closely together for the past six years. The Galvin Green Tour has allowed this collaboration to be further strengthened. Through this collaboration we are now also able to support Norwegian club activities and there are many more opportunities for our products to reach golfers all over the country," explains Daniel Ericsson, Export Area Manager for Galvin Green.

"The Norwegian market is very interesting and our products are perfect for playing conditions in Norway. Galvin Green golf wear allows Norwegian players to perform at their best. Our clothing also enables the golfing season to be extended up here in the North," continues Ericsson.

"We've had a great deal of very positive feedback on our products from the Norwegian national team. Through our sponsorship of the Galvin Green Tour we want to introduce Galvin Green's products to golfers all over Norway. Our goal is to share Galvin Green's knowledge and expertise in all-weather golf wear," says Jon Anders Wahlund of TWT Sport, Galvin Green's distributor in Norway.

"The right clothing is key to performing to the best of one's ability on the golf course. We are therefore very pleased to have the opportunity to further develop our collaboration with Galvin Green," says Hanne Røhmer, Marketing manager for the Norwegian Golf Federation.

ABOUT THE GALVIN GREEN TOUR:

The Galvin Green Tour is jointly organised by the Norwegian Golf Federation, Galvin Green and selected golf clubs. The Galvin Green Tour comprises a series of ten tournaments held at ten different clubs spread across the whole of Norway. The tour is the biggest golf tour in Norway and includes the

Norwegian championships. The aim of the Galvin Green Tour is to offer Norwegian elite golfers a high standard tour which makes a smooth transition from Norwegian to international competitions, and makes it easier for Norwegian players to break through at a higher international level.

The Galvin Green Tour will kick off with two parallel qualifying tournaments at Solastranden Golf club and at Skjeberg/Borregaard Golf clubs on 25–26 April, with the final being held at Hakadal Golf club on 11–13 September 2009.

ABOUT GALVIN GREEN:

Galvin Green is a leading manufacturer of premium golf wear; widely available in most of Europe as well as Canada. Galvin Green develops and designs functional clothing using GORE-TEX® and other high-tech materials. With their Multi-Layer Concept Galvin Green can offer a complete range of golf clothing for players who refuse to compromise on material, function and design.

ABOUT THE NORWEGIAN GOLF FEDERATION

With over 122,000 members in over 185 golf clubs, the Norwegian Golf Federation (NGF) is one of the largest Norwegian sports federations. The federation works to develop Norwegian golf for players of all levels and ages. The NGF is also responsible for Team Norway and Team Future elite initiatives. The federation reports to the Golf Assembly which is formed of representatives from golf clubs across the country.
