BEST SOFTWARE SUPPLIER 2009

Galvin Green scoops Golfstore Supplier Award

Galvin Green has been voted Best Software Supplier 2009 by Golfstore shops in Sweden, Norway, Germany, Austria and the Netherlands.

In the survey, Golfstore members rated their suppliers and brands in nine different categories including product range, quality, demand, profitability and complaints. The results show that Galvin Green stands up to the competition very well in all categories, and further reinforce the brand's position as a leading golf wear manufacturer.

"Galvin Green's repeated top ranking in various tests shows that our products and our focus on quality are world-class. This is the result of a long-term, targeted effort. It is therefore satisfying to see that our efforts are bearing fruit, all the way down to the retailers and the consumers," comments Christian Nilsson, CEO of Galvin Green.
