AUTUMN/WINTER COLLECTION 2011

Galvin Green launches new Body Mapping concept in its autumn/winter collection 2011

With the autumn/winter collection 2011, Galvin Green is raising product development to new heights. The focus on new, advanced materials and innovative design has led not only to a selection of exciting new garments for both men and women, but also to a completely new, high-performance Base Layer range – SKINTIGHT™ Compression 10 Body Mapping Technology.

The new collection has been developed to cope with the demanding weather conditions that golfers encounter during the autumn and winter months. One of the highlights of the autumn/winter collection is the Base Layer series – featuring SKINTIGHT™ Compression 10 Body Mapping Technology – which is a completely new product range. The series comprises the **EDGE** top and the **ELMO** bottom and constitutes a unique product in golf, developed especially for playing in cold weather. Body Mapping Technology involves designing the base layer with specially selected materials and advanced functions linked to critical areas of the body and movement patterns particular to golf. The combination of Compression Technology and Body Mapping Technology provides the base layer with unique properties that boost the player's performance.

In the Warm Layer range, Galvin Green presents **BOYD** – a new windproof bodywarmer in WINDSTOPPER® Soft Shell fabric. Thanks to the use of this soft, flexible and lightweight material, the garment also functions exceptionally well under an outer layer of GORE-TEX®. **DEREK** bodywarmer is a new addition to the **INSULA™** range. **DEREK** is an excellent reinforcement item for those days when extra warmth is required. The short zip and the sleeveless design allow you to keep your versatility and freedom of movement.

Galvin Green's popular ladies' collection is growing steadily and for the first time, the 2011 autumn/winter collection also includes knitted blouses and trousers. **CRYSTAL** is a soft, knitted cardigan with the comfort and quality of cashmere. The new **BROOKLYN** and **BIBBI** models are respectively a jacket and a body-warmer in WINDSTOPPER® fabric with a layer of Primaloft® padding inside. This makes the windproof items feel soft and warm.

You can see more new items in the Autumn/Winter Collection 2011 catalogue. With high-performance garments in all areas of the Multi-Layer Concept, Galvin Green is proud to present a complete collection in 2011. Designed by golfers, for golfers.

IMPROVED PRODUCT PRESENTATION ON THE WEB

For the 2011 season, Galvin Green has refined the structure and polished the content of its website: www.galvingreen.com. The presentation of the collection has been thoroughly updated and now features extended options for searching and accessing information about the products.

The new product database provides a full-coverage presentation of each and every garment, displaying detailed information about the design, materials and functions. The site also contains tips about appropriate combinations of garments from and for different layers. To make it easier for visitors to find just what they are looking for, products can be sorted by type, material, layer or colour. These new features makes the product database a complete resource for both retailers and consumers.

NEWS FROM GALVIN GREEN

AUTUMN/WINTER COLLECTION 2011

AYERS #G7002 17 (Men's)
Waterproof jacket in GORE-TEX® Performance Shell fabric with excellent breathability. The jacket features a fresh new design, with a modern technical cut. Three-coloured model with a full-length zip and two front pockets. Features rain channels at the sleeve ends and adjustable waist.
Colours: White/black/gunmetal, Black/gunmetal/white and Pinot noir/black/white.
Sizes: S-3XL, S-4XL. (Black/gunmetal/white)

BOYD #G7021 17 (Men's)
Windproof bodywarmer in WINDSTOPPER® Soft Shell fabric. This soft and flexible lightweight material provides peerless breathability. The bodywarmer has a full-length zip and a soft elasticated coil that sits snugly around the arm opening. Features a chest pocket and adjustable waist.
Colours: Black and White/black.
Sizes: S-3XL.

INSULA™

DEREK #7033 77 (Men's)
Bodywarmer in INSULA™ material. A light, flexible garment with excellent breathability. The bodywarmer has a short zip and a soft elasticated coil that sits snugly around the arm opening. This versatile item makes an excellent intermediate layer when playing in cold conditions.
Colours: Black/white.
Sizes: S-3XL.

MERCURY #G7050 97 (Men's)
Short-sleeved sporty golf shirt in VENTIL8™ material. A very light and versatile shirt with excellent breathability and moisture-transportation properties. The shirt features an advanced Body Mapping system with special material to provide extra ventilation in high impact areas.
Colours: White/brilliant blue/black, Ash blue/black/white, Black/white and Pinot noir/black/white.
Sizes: S-3XL.

BROOKLYN #G8021 77 (Ladies')
A windproof jacket in WINDSTOPPER® Insulated Shell fabric with Primaloft® padding. The soft, light padding provides warmth and comfort. A feminine cut with a two-way zipper and finely worked decorative seams. Features two front pockets and elasticated cuffs.
Colours: Black and Royal purple.
Sizes: XS-XL, XS-XXL (Black).

BIBBI #G8022 91 (Ladies')
A windproof bodywarmer in WINDSTOPPER® Insulated Shell fabric with Primaloft® padding. Features the same properties as the **BROOKLYN** WINDSTOPPER® jacket (see above). The garment provides warmth and protection from the wind, while the sleeveless design allows players maximum freedom of movement.
Colours: Black and Royal purple.
Sizes: XS-XL, XS-XXL (Black).

CRYSTAL #G8041 91 (Ladies')
Knitted cardigan with the comfort and quality of cashmere. A soft top with a full-length zip and soft cuffs that sit snugly around the wrists and the waist. A feminine cut with finely worked details.
Colours: Black/white and Royal purple/white.
Sizes: XS-XL.

10°
SKINTIGHT
compression

EDGE #G7095 77 / ELMO #G7096 77 (Men's)
Warm base layer in SKINTIGHT™ Compression 10 Body Mapping Technology. A performance boosting base layer set that combines advanced Compression Technology and Body Mapping Technology. Extremely good breathability and moisture-transportation properties. Ensures maximum comfort and performance when playing in cold conditions – i.e. under 10°C.
Colours: Black/dark grey.
Sizes: XS-3XL.
